Beverly Carter
Sylvester Bhembe
Mike Baldwin
Chip Fredette

8:00 am - Verizon Tower – Site Plan Review – off of Hersom Lane Map R15 Lot 33:

Representatives from Verizon, abutters and members of the Planning Board met on site. Verizon already had in place a five (5) foot wide red balloon “floating” at 185’ which is the height of the proposed tower. The balloon will be “floating” from 8:00 am to 12:00 pm.

The majority of those in attendance walked through the woods to the area the tower is proposed to be located on the property. Representatives for Verizon will be driving approximately one (1) mile around the site and taking photos from Town roads whether or not the balloon is visible and will submit the data to the Board once available.
